I am a REALTOR® with the 8300 College Blvd. Office serving the Kansas City Area.

I became a REALTOR® in 1985 after an almost 20 year career with IBM Corporation. I finally had the opportunity to pursue this dream after remarrying in 1981. Being a REALTOR® feels like a natural career - I feel it is the job I was meant to have. I thoroughly enjoy the many challenges this job provides and know that each day will bring something new.

I am fortunate to have five exceptional team members allowing us to provide the very best service to our clients. Whether you are buying or selling, we take our responsibility seriously and hope you will feel as if you have been treated in the most professional and caring manner.

In addition, we have taken training to receive the SRES designation (Senior Real Estate Specialist) as we recognize the many questions this type of move brings. We have been gathering information to provide answers and resources. We are very excited to add this specialty to our range of services. We want to be your REALTOR® for ALL the times in your life.
